

Waterloo Township Board

Motion to Extend Special Land Use Permit for Aggregate Resources, Inc.

On the 21st day of March, 2005, motion made by Pamela Sweet, seconded by Robert Hannewald:

The Waterloo Township Board hereby extends the Special Land Use Permit to operate a sand and gravel mining operation to Aggregate Resources, Inc. upon the following conditions:

1. This renewal is effective from April 1, 2005 and continues until March 31, 2006 at which time this permit expires.
2. This Special Land Use Permit is for the property located on Clear Lake Road at Harvey Road (known as the Clare Wahl property) as defined in the prior conditional use permit issued to the applicant and as contained in the application for this permit. This permit does not include any property owned by the State of Michigan.
- 3.a. The sand and gravel mining operations shall be limited to the delineated area and amount of material (i.e., up to 140,000 cubic yards) as outlined in the site plan submitted to the Planning Commission on March 8, 2005, Job Number 2002-083, dated 3-3-05. The area to which this mining is restricted shall be delineated with white markers at the extraction site on the property.
- b. The sand and gravel mining operations shall otherwise be limited to the removal of already processed and stockpiled materials. No further mining or processing of materials is allowed by this permit. Any further mining or processing of materials at the site shall immediately and automatically void this permit.
4. Incorporated into this permit are all of the prior restrictions and/or conditions contained within the last issued conditional use permit for the above property except as may be modified by this permit. Notwithstanding any statements on the aforementioned site plan regarding the availability of restoration materials, the amount of the bond with respect to this permit shall remain the same.

Those voting yes: J. Gray, R. Hannewald, E. Huttenlocher, P. Sweet

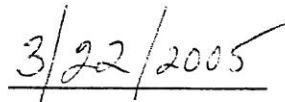

Those voting no: none

Motion carried.
