Subject: Consumers Energy meter information for Waterloo Township

Good afternoon,

I'm writing to let you know that our new electric and gas meter technology will be installed in Jackson County residents' homes and businesses beginning in the fall of 2016. I've been meeting with township officials from Jackson County, and I would appreciate the opportunity to talk with you about what you can expect when we begin installing meters in your area.

I'll be in Jackson on Monday, June 20th and was wondering if I could stop by around noon, or if that doesn't work I'll also be in Jackson Wednesday, June 22nd and could stop by around 2:00 or so. I welcome any township officials as they will most likely be the ones answering questions from residents and business owners. My presentation only takes about 10 minutes and I welcome any questions you might have.

I look forward to hearing from you.

Kindest regards,

Kathryn Burkholder
