

April 12, 2016

Dear Waterloo Recreation Area Residents:

On Saturday, May 7, 2016 beginning at 9:00 a.m., the Waterloo Hunt Club will host the 27th annual Earth Day clean up, rain or shine.

The purpose of Earth Day is to clean up trash and litter from the roadsides and two tracks throughout the Waterloo Recreation Area. For twenty seven years members of the Waterloo Hunt Club, the Grass Lake 4-H Club, friends and area residents have filled at least a 30 cubic yard dumpster each year. In addition, over 2,265 tires have been retrieved from the roadsides. In total, that is enough trash to cover a NHL hockey rink with over a foot of trash and enough tires to stretch way over one mile.

The 2015 cleanup was a huge success, we topped off a huge dumpster last year and collected over 60 tires.

Once again, we are asking for your help in identifying areas that need attention. If you are aware of a specific road or dumping spot that needs cleanup, we would like to be contacted. In addition, if you are interested in volunteering to assist during the cleanup, your help would be very much appreciated. If you have a vehicle that can be used to haul trash, please bring it. Remember to wear sturdy shoes and gloves. Assignments will be handed out at the Hunt Club Kennels at 9:00 am - 5600 Katz Road, in Grass Lake.

Please contact Sally McAlinden at 734-216-9912 (cell) or email mcalinde@gmail.com to identify potential cleanup areas or if you have questions about volunteering on May 7.

All volunteers are invited to a free lunch that will be served at the Hunt Club clubhouse at approximately 12:00 noon.

Sincerely,

Sally McAlinden
Earth Day Coordinator
