

APPLICATION FOR OPERATING PERMIT FOR
EXTRACTION OF SAND AND GRAVEL
WATERLOO TOWNSHIP

A Preapplication Conference is required prior to submission of an Application if a permit has not been previously granted for this parcel. This gives the applicant an opportunity to meet informally with Township Officials and Consultants and avoids unnecessary delays and costs associated with preparation, processing and review of the application. Contact the Township to schedule this conference.

The applicant should obtain a copy of the Waterloo Township Handbook on Extraction of Sand and Gravel and copies of the Waterloo Township Zoning Ordinance (1992 as amended) and the Waterloo Township Sand and Gravel Ordinance. (02-05-21-2, as amended).

Name, complete address and phone number of Applicant. If the Applicant is a corporation also list the complete address and phone number for the corporate home office.

Names, addresses and titles of principle Agents/Officers/Principles/Directors of the Applicant Corporation (attach sheet if required):

If Applicant is not the legal landowner of the parcel on which this Extraction Operation will be performed, list the landowner's name, mailing address and phone number.

Tax ID Number for the Parcel and Street or Street Address of the Parcel.

Approximate acreage of the parcel: _____

Has mining or extraction of sand and gravel occurred on this parcel in the past?

Yes No

Attach 15 copies, including any previously submitted and on file with the Township:

- Copy of lease or other legal document showing that the Applicant/Corporation has been granted authority to extract sand and gravel from the parcel.
- Legal description of the Parcel under consideration
- A list of any Deed Restrictions, Easements or Rights of Way
- Survey Drawing by a licensed Surveyor showing a staked survey of the specific area for the requested Extraction Operating Permit
- If extraction or mining has occurred in the past submit a sketch showing the location and extent of this prior activity.
- Topography map
- Hydrologist Report (if required)
- Environmental Impact Statement
- Statement of Compatibility with adjacent land uses
- Landscape Plan
- Restoration Plan
- Copies of Permits required by other agencies and sworn affidavit that all required permits have been obtained.
- Written approval from the County Road Commission
- Dust Control Plan
- Plan for site clearance
- Plan for ponded or surface water

- List of equipment with details
- Copy of Liability Insurance Policy

The list above is a summary of the specific data required to be submitted with the application in Section 6.05 **Information and Data Required**, items A through S. All required items and data specified in the Ordinance must be a part of the application or attached, even if not listed the summary shown above.

- An Application for Special Conditional Use for Extraction of Sand and Gravel Permit is to be processed in conjunction with this application.
- A Special Conditional Use for Extraction of Sand and Gravel Permit has already been approved for this parcel.
- Attach a copy of the signed Special Conditional Use for Extraction of Sand and Gravel Permit (previously submitted, approved and on file with the Township).

Attach a Site Plan for the proposed extraction operation on this parcel (previously submitted, approved and on file with the Township).

- Submit 15 copies**
- If a Special Conditional Use application is being submitted in conjunction with this application, the Site Plan must meet the standards in the Sand and Gravel Extraction Ordinance [Section 6.05 Information and Data Required], even though the site plan requirements for Special Conditional use in the Waterloo Zoning Ordinance are different.

If both Permits are being processed at the same time, the Waterloo Township Zoning Ordinance (Section 6.4 Public Hearings) requires a Public Hearing before the Waterloo Township Planning Commission for site plan review and consideration of the Application for Special Conditional Use. You should be present at that Hearing.

Anticipated date when Extraction activities will be closed: _____

This date is likely an estimate. The length of the permit is for one year with one-year renewals.
This date will NOT be used to automatically terminate the operation.

Estimated total amount of material and types of material to be taken from the site:

Prior to issue of an Operating Permit for Sand and Gravel Extraction the Operator must submit a Restoration Guarantee. The Waterloo Township Board will determine the amount of this guarantee at the time the Application is considered. To a large extent the type of Restoration Plan (phased or not phased) will influence the amount of this guarantee. This should be carefully factored into the preparation of your Restoration Plan.

An Interim Application Payment is required at the time this Application is submitted. The Township will notify you of the specific amount of this payment. This amount is in addition to the Basic Charge paid at the time of the Pre-application Conference. However, the Township Board will determine the actual Total Fee at the time of Review of this application. Any additional payments will be due in full prior to issue of the Operating Permit for Sand and Gravel Extraction.

As the Applicant, I am either the legal owner of the property or am a leaseholder legally authorized to act on the landowner's behalf.
